[Portfolio and Projects](#)

As a full-stack developer, I orchestrate the symphony of code, weaving seamless interactions on the front-end and orchestrating powerful functionalities on the back-end, crafting digital experiences that transcend mere lines of code.

## EDUCATION

**BS Computer Science / 2018 - 2023**

University of Management and Technology  
Lahore, Pakistan

## PROFESSIONAL EXPERIENCE

**Senior Software Engineer**

ConsoleDot - Lahore  
January 2023 - Present

## FINAL YEAR PROJECT

**Integrated Business Model - MERN STACK**

A full-fledged ERP system. It is being used in production by **RANKOLI**

## LANGUAGES

- Urdu (Native)
- British English (IELTS 6.5)
- German (Beginner)

Over the course of the last twelve months, I have served as a Full-Stack Developer specializing in the MERN (MongoDB, Express.js, React, Node.js) stack. My professional expertise encompasses the development of high-caliber enterprise applications, with a particular focus on diverse projects ranging from e-commerce dashboards and freelancing platforms to the integration of metaverse wallets and the creation of social media applications. Additionally, I possess practical experience in implementing sophisticated Chatbots, all while maintaining a keen attention to detail and adhering to industry best practices.

## TOP SKILLS

**Frontend:** React.js, Next.js, Bootstrap5, TailwindCSS, MaterialUI, React-Admin

**Backend:** Express.js, Node.js, GraphQL, Socket.io

**Database:** MongoDB, MySQL, PostgreSQL

## CERTIFICATIONS

- REST API ([HackerRank](#))
- JavaScript ([HackerRank](#))
- React.js ([HackerRank](#))
- Coding Ustaad (Netsol)

## OTHER TECHNICAL SKILLS

**ORM:** Prisma, Mongoose, Sequelize

**BaaS:** Firebase, Supabase, Parse Platform

**Web3:** Web3.js, Ether.js, Immutable.js

**Programming Paradigms:** Functional

Programming Paradigm, OOP Paradigm,

Event-Driven Paradigm

**Artificial Intelligence:** ml5.js, tensorflow.js,

HuggingFace, LangChain

**Augmented Reality:** AR.js, A-frame, Image-Based, Location-Based, Marker-Based
